Psychologist

JOB DESCRIPTION

- A specialist who provides Individual, group and family psychotherapy
- Provides assessment, diagnosis and treatment of emotional, behavioral, and mental health disorders; and acts as a consultant to other service providers
- Neuropsychological, psycho-educational, personality and forensic assessment.

HIGH SCHOOL REQUIREMENTS

- High School Diploma
- University preparatory courses
- Required courses depend on whether individual plans to pursue a Bachelor of Arts or Bachelor of Sciences Degree in University.

ACCEPTABLE GRADE AVERAGES

- High school average of at least 70% required for initial University acceptance
- However, acceptance into post graduate training (Ph.D., Psy.D., M.Sc.) is **very** competitive and will require high academic standing throughout under graduate study.

EDUCATION REQUIREMENTS

- Masters degree in Psychology is the minimum educational requirement to begin practice as a clinical psychologist in Nova Scotia
- Some other provinces and most US states require training at the Doctoral level (Ph.D., Psy.D.)
- Registration also requires completion of clinical internships, supervised clinical practice, completion of a standardized licensing exam and an oral examination by the Nova Scotia board of Examiners in Psychology.

TRAINING PROGRAMS

- Individuals should only seek graduate training programs accredited by the Canadian Psychological Association.

LOCATION OF TRAINING PROGRAMS

- Dalhousie University, Halifax, NS
- Memorial University, St. Johns, NF.

LENGTH OF PROFESSIONAL TRAINING

- Completion of the undergraduate (B.Sc., B.A.) typically takes 4 years, Masters Degree takes an additional 2 years
- Completion of doctoral training (Ph.D. or Psy.D.) typically requires an additional 4-6 years
- Individuals with master's degrees require 4 years of supervised clinical practice following their degree before becoming eligible for independent practice
- Individuals with a doctorate require one year of supervised clinical practice following their degree before becoming eligible for independent practice.

STARTING SALARY RANGE IN NOVA SCOTIA

- Public sector approximately \$73,000 to \$95,000
- Private practice approximately \$100,000 - \$160,000

OTHER REQUIREMENTS

- Internship
- 1600 hours of clinical practice
- Licensing examination.

Making Healthier Choices Together

Physician

JOB DESCRIPTION

- While there are many different types of physicians, about half of all doctors are family physicians, the other half are specialists
- There are at least 60 different types of specialties practiced in Nova Scotia with broad categories including surgery, adult medicine, childhood medicine, women's health, mental health, diagnostic imaging, and laboratory medicine
- Each type of medical practice has its own unique challenges, rewards and lifestyles.

HIGH SCHOOL REQUIREMENTS

- High School Diploma
- Courses including Biology 12, Physics 12, Chemistry 12.

ACCEPTABLE GRADE AVERAGES

- The admission process is highly competitive and only those with high academic standing are considered for entry each year
- GPA of 3.3 or higher (85+ or A to A+).

EDUCATION REQUIREMENTS

- **Broad academic background:** The faculty looks for applicants who have a good record of achievement in both academic and non-academic activities. Applicants with a broad academic background have a better chance of admission as humanities, physical, and social sciences cultivate desirable personal qualities for students and physicians
- **Several levels of training:** Sound basic training in the sciences is important so students can understand the complexities of modern scientific medicine
- **A four-year degree:** The Admissions Committee also recognizes that appropriate preparation for the study of medicine can be acquired through many varied educational backgrounds. The minimum requirement for entry, however, is a baccalaureate degree in **any discipline**. Although candidates with three-year degrees are occasionally admitted; a **four-year degree** is strongly preferred
- **Communications skills:** It is essential that future physicians are able to communicate effectively, both orally and in writing
- The Medical College Entrance Exams (MCATs) are required for entry to most Medical School, and a good score on this exam is required.

LOCATION OF TRAINING PROGRAMS

- There are 14 English Medical Schools in Canada, the closest are:
 - Dalhousie, Halifax, NS, www.medicine.dal.ca
 - Memorial University, St. John's, NL.

LENGTH OF PROFESSIONAL TRAINING

- Undergraduate degrees typically take 3-4 years to complete
- Medical School typically takes an additional 4 years to complete
- After Medical School students choose a residency that lasts 2-7 years
- Residents are paid a salary
- Family medicine residency is 2 years.

OTHER REQUIREMENTS

- Most Medical Schools require students to take the Medical College Admission Test (MCAT)
- Extra curricular activities
- Medically related experience
- Volunteer experience
-

OTHER RELEVANT INFORMATION

- For more information on Medical Schools in Canada logon to the website http://www.acmc.ca/can_fac.htm.

Radiation Therapist

JOB DESCRIPTION

Radiation Therapy is one of three mainstream modalities used in the treatment of cancer. It uses ionizing radiation to treat primarily malignant diseases in people of all ages.

The Radiation Therapist practices in these main areas:

- Simulation: includes taking x-rays or using a CT scanner to obtain patient's anatomy, deciding on treatment position and construction of immobilization devices
- Treatment Planning: including treatment simulation and dose distribution generation
- Treatment Delivery: administering daily treatment and fulfilling the treatment prescription
- Patient Care: explaining potential side effects and helping patients and family members cope with treatment.

HIGH SCHOOL REQUIREMENTS

- High School Diploma
- Those High school credits required for entry into a Bachelor of Science program at the Undergraduate level
- 5 University full course credits including Physics, Math and Biology with a minimum grade of C- and an overall minimum grade of B-
- Usually includes an interview and aptitude test.

LOCATION OF TRAINING PROGRAMS

- University of Toronto/The Michener Institute, Toronto, ON (<http://www.michener.ca>)
 - In the past, this program has been sponsored by the province of NS. Please check before applying to see if this is still the case.

LENGTH OF PROFESSIONAL TRAINING

- This is a three year program (this does not include the year of undergraduate courses that are required to get into the program)
- Graduates obtain a BSc in Radiation Sciences and an Advanced Diploma in Radiation Therapy.

STARTING SALARY RANGE IN NOVA SCOTIA

- Approximately \$68,100 - \$79,500.

OTHER REQUIREMENTS

- Radiation Therapists in Nova Scotia are members of the Nova Scotia Association of Medical Radiation Technologists (NSAMRT) and the Canadian Association of Medical Radiation Technologists (CAMRT)
- Certification is achieved by completion of an accredited program, a series of competency based assessments and examinations
- www.nsamrt.ca, www.camrt.ca

Registered Nurse - Oncology

JOB DESCRIPTION

Oncology nursing the care of patients and families with a potential or actual diagnosis of cancer. The fundamental goals of oncology nursing are to promote cancer prevention and early detection practices and to facilitate individual and family functioning throughout all stages of the disease process.

Oncology nursing practice spans the phases of prevention, diagnosis, treatment, rehabilitation, palliation, and bereavement. Oncology nurses perform as direct caregivers, educators, administrators, and researchers in various practice settings including community, acute care, long term care, ambulatory care and home care.

HIGH SCHOOL REQUIREMENTS

- High School Diploma
- Those courses which are required for entry to a 4 year baccalaureate nursing program.

LOCATION OF TRAINING PROGRAMS

- Baccalaureate programs are available at various Canadian universities. In Nova Scotia nursing education is available at Cape Breton University, St Francis Xavier University and Dalhousie University.

The following is a list of examples for taking specialized oncology nursing programs, and is not all inclusive:

- Oncology Nursing Distance Education Program (ONDEC), Cross Cancer Institute, Edmonton, Alberta
- Pediatric and Adult Oncology Nursing Education programs, McMaster University, Hamilton, Ontario
- Certificate Program in Oncology Nursing, University of Alberta, Edmonton, Alberta

LENGTH OF PROFESSIONAL TRAINING

- Generalized oncology nurse: Basic educational level, four year, Bachelor of Science in Nursing.
- Specialized oncology nurse: A nurse with enhanced specialty knowledge and skills whose primary focus is cancer care.
- Advanced oncology nurse: Master's prepared nurses with knowledge and expertise in an area of cancer nursing.

STARTING SALARY RANGE IN NOVA SCOTIA

- Approximately \$57,000 annually.

OTHER REQUIREMENTS

- Successful completion of the Canadian Registered Nurse Examination
- Active registration with the College of Registered Nurses of Nova Scotia
- Oncology nurses are strongly encouraged to be members of the Canadian Association of Nurses in Oncology
- Some districts and provinces require that nurses obtain their certification in oncology nursing (CON©)
- To administer chemotherapy, oncology nurses must first complete a competency based education program and preceptorship and must meet criteria for yearly maintenance of competency.
